SPORT FIT BOWIE

A Health Club Like No Other

100 Whitemarsh Park Drive, Bowie, MD 20715 (301) 262-4553

Sunday July 1st - Saturday July 28th

This is our current pricing model for all of the swim lessons. Each session consists of 4 classes with no options for makeup. All lesson purchases are final, there are no refunds or makeup classes. If the participant becomes physically unable to perform in the lesson and has a doctor's note to confirm that, or if the class is cancelled for a week from our end, then we will provide that guest with a credit for however many classes were missed for the next session.

Lesson Type	Ages	Amount of Lessons per Session	Lesson Length (Minutes)	Member Lesson Pricing (Per Month)	Non-Member Lesson Price (Per Month)
Babies/Tots	0-36 Months	4	30	80	139
Primary	3-6 Years	4	30	80	139
Youth	7-12 Years	4	40	95	155
Teen/Adult	13-100 Years	4	45	95	155
Stroke Proficiency	7-18 Years	4	45	108	168
Homeschool Beginner	3-12 Years	4	45	108	168

Swim Lesson Descriptions:

Aqua Babies (0-12 Months): The infants will get time to get acclimated and used to moving through the water while the parents learn valuable safety topics.

Aqua Tots 1 (8-24 Months): Toddlers will get the chance to continue mastering their floats, kicks, and overall comfort level in the water, with their parents' assistance.

Aqua Tots 2 (18-36 Months): Toddlers will learn to do more movements in the water with less parental guidance in order to get them more prepared for swim classes without their parents' assistance.

Primary 1 (3-6 Years): The child will start to learn how to float and exit the pool independently while also doing assisted front and back glides to begin getting used to the freestyle and backstroke motions.

Primary 2 (3-6 Years): The child will be able to kick from one side of the smaller pool to the other with little assistance from the instructor as well as the arm movement for the freestyle and backstroke

Primary 3 (3-6 Years): The child will be able to do a basic version of both the freestyle and backstroke along with more introduction to deep water through treading and diving.

Youth 1 (7-12 Years): The child will learn the basics of freestyle and backstroke through floats, glides, and kicks with instructor assistance if needed.

Youth 2 (7-12 Years): The child will begin the arm movements for freestyle and backstroke with the goal of being able to swim 15 yards, as well as an introduction to rotary breathing.

Youth 3 (7-12 Years): The child will learn how to swim the full length of the pool with freestyle and backstroke, along with deep water introduction through treading and diving.

Youth 4 (7-12 Years): The child will begin focusing on learning the breaststroke and increasing their endurance so that they can swim 50 yards.

Youth 5 (7-12 Years): The child will be focusing mostly on endurance by increasing their max swim length to 100 yards and their tread time to 2 minutes.

Stroke Proficiency (7-18 Years): The child will focus on doing longer distance swims and making minor tweaks to their form in order to make them move through the water as efficiently as possible.

Teen/Adult 1 (13-100 Years): The student will focus on getting comfortable with fully submerging themselves underwater and learn the basics of either the freestyle or backstroke.

Teen/Adult 2 (13-100 Years): The student will put a heavier focus on attempting to move from one side of the pool to the other without stopping so that they can swim and tread in deeper water

After School Swim (7-12 Years): **Beginner** is a mix of youth 1 & 2, **Intermediate** is a mix of youth 3 & 4, **Advanced** is a mix of youth 5 & stroke proficiency.
